- full broadform liability
- cover for declared activities

ALL PARKS INSURANCE— YOUR SPECIALIST PROGRAM

Put together expertise, knowledge, experience and support of the Accommodation industry and you end up with an insurance product that fulfils the needs of the caravan and holiday parks.

All Parks Insurance have collated information through claims and put together a constructive and effective risk management approach to your business. As part of our service to you, All Parks carry out comprehensive surveys on all of the parks we insure. This helps the insurer to understand the risk and can be favourable to you in the event of a claim, at the same time it provides information for competitive premiums.

Insuring your park correctly can only be done before a claim. After the event the only thing you have to worry about is are you correctly insured. The answer can make or break you and the amount of premium is not even mentioned.

*Claims can be devastating
and create worrying,
restless nights. Call us or your
broker for a comprehensive
quote today.*
